A group of wounded Soldiers from C Co, WTB-E, took a trip to an indoor swimming pool in Werneck where they stripped off their uniforms, kicked off their boots, and hit the water for a scuba diving adventure.

Reduce standby power

Unplug devices you aren't using, use a switchable power strip for clusters of computer or video products, and use low standby power products such as ENERGY STAR. An informed and aggressive approach can reduce standby use by about 30%. To learn more about standby power, click here.
