MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Policy Statement on Safety and Occupational Health

1. Safety and occupational health is a command responsibility. Accidents reduce work performance, lower quality of life, and can result in suffering and death.
2. The emphasis in the USAG Schweinfurt will be on prevention of accidents and occupational illnesses.
3. Supervisors will integrate risk management principles into the planning and execution of everything they do. The success of our missions and the safety of our employees and customers depend on it.
4. Leaders and operating personnel will maintain a safe and healthful working environment. They must take action to correct hazards reported by employees or identified through accident investigations.
5. All employees will comply with established standards and promptly report all hazards to their supervisor and to the USAG Schweinfurt Installation Safety Office, 354-1670.
